Inauguration of the event

From June 27 to July 14, 2024 Rifugio Digitale presents the exhibition *Dark Whispers* by photographer Morganna Magee, which is the fifth stage of the exhibition cycle dedicated to contemporary photography *Homecoming*, conceived by Irene Alison and curated by Irene Alison and Paolo Cagnacci. The event is organized in collaboration with Forma Edizioni and the Associazione Infoto and thanks to the support of Gruppo AF and Banca Ifigest. The opening will be held on Thursday, June 27, 2024 at 6:30 p.m. in the presence of the artist and curators.

"Nature is all that matters to me. The rest of the world is a fiction created by human beings for their own amusement, in which I have never felt at peace. I'm much happier day-dreaming under a tree than in any other place". It is in nature, in the silence broken only by the myriad rustling whispers of the Australian bush in the dawn's early light, that Morganna Magee finds her inspiration. Originally from Melbourne the Australian artist, for her first personal exhibition in Italy, brings to Rifugio Digitale a show - entitled *Dark Whispers*, curated by Irene Alison and Paolo Cagnacci - including examples of material from her most recent projects as well as new material produced exclusively for the exhibition, in an itinerary that takes the viewer into the dark heart of the forest, in search of an ancestral, indomitable spirit.

This new event in the *Homecoming* cycle is a study of the landscape made by Morganna Magee, with a structure that is more metaphysical than geographical: what she describes for us is an inhabited land, on the borderline between the familiar and the surreal, populated by physical and evanescent presences, where Magee seems to search for the very roots of her own identity. Here and there, we catch a glimpse of a kangaroo; the outline of a horse penetrates the veil of morning mist. We can hear a flutter of wings, and a ghostly apparition seems to rise in the air.

RIFUGIO DIGITALE

Nature vibrates, in *Dark Whispers*, with the tremulous keen of ancient voices, speaking of pain and hope. It bares its soul before the melancholy eye of the photographer, like a tapestry of enchantments and memories, both personal and collective, in which death and rebirth are no more than passages in a great, unending cycle.

On the occasion of the exhibition, also on June 27, Morganna Magee will hold a **lecture** in dialogue with Irene Alison and curated by Paolo Cagnacci at InFoto's Bottega space on Leonardo Bruni Street, from **4 to 5:30 p.m.**

From the day of the opening it will also be possible to consult the catalog of available works by **Morganna Magee** on the Forma Edizioni website www.formaedizioni.it.

Banca Ifigest

In the Middle Ages, the two largest banks in Europe already existed in Florence, the Bardi bank and that of the Peruzzi family, with branches all over Europe, lending money to merchants and monarchs. In the early 20th century, for the great bankers of New York, Florence was the icon of the maximum splendor they wanted to imitate and, indeed, when the building that houses the Federal Reserve was constructed, its architects were inspired by Palazzo Vecchio, Palazzo Pitti and, above all, Palazzo Strozzi, to give the structure an idea of stability, solidity and security. So it was in Florence, thanks to the initiative of several groups of entrepreneurs and historic Italian families, that Banca Ifigest was founded, in 1987. Banca Ifigest, one of the main Italian independent banks is still today the most trusted partner for the management and conservation of family wealth, thanks to its personal approach. Today the bank operates branches in Rome, Turin, Genoa, Milan, Prato and Santa Croce sull'Arno, in addition to its main headquarters in Florence, it also has offices of Financial Consultants in Sesto Fiorentino and Casalecchio di Reno. Among the numerous services provided by the banking group, Banca Ifigest offers services of assistance to those clients who need to preserve and safeguard complex equity situations, through its subsidiary Sevia Fiduciaria; it operates in the market of common investment funds, with its highly experienced management team, through its equity investment Soprano SGR and through Fundstore.it, the largest supermarket of online funds, where it is possible to purchase in as many as 7,000 different sectors using your own current account with any Italian bank. Throughout its history, Banca Ifigest has always paid close attention to social considerations, working alongside small enterprises to ensure that their money is always used for the purpose for which it was intended. The Bank has often contributed to sponsor and realize cultural and sports events, demonstrating its strong ties to the local community.

INFOTO

The cultural association INFOTO-Florence was founded in 2019. Its founding partners, photographers who are all Florentine by birth or adoption, number eighteen at the moment, but it is an open number: one of the primary goals of the Association is the promotion of initiatives and projects targeted on increasingly broadened participation. In addition to organizing exhibitions, and the constant participation of many of our members in nationwide competitions, we are particularly focused on training, encouraging didactic activities guided by professional photographers. The main goal of INFOTO is to create a reference in Florence for photographic culture, which has been neglected for far too long. Attention to visual culture in its broadest sense, tends to make us more appreciative of other artistic disciplines as well, with a better understanding of painting, sculpture, architecture and the urban structure of our cities. Our members have participated regularly in exhibitions where their photography was featured alongside works of painting and sculpture, in search of the similarities and shared difficulties: a broader outlook from which to draw inspiration and new stimuli. At this time, with the support of Banca Ifigest, we plan to organize a series of workshops alongside the important exhibitions presented at Rifugio Digitale. The workshops will be held by Italian and international photographers. Working alongside the professional journalist and photo-consultant, Irene Alison, and the photographer Paolo Cagnacci, who participated with us in organizing the exhibitions and workshops, we gleaned a number of interesting ideas for our activity in the field of quality photographic research.

RIFUGIO DIGITALE

Rifugio Digitale

Rifugio Digitale (Digital Refuge) is a new exhibition space in a former bomb shelter tunnel repurposed as a site devoted to the promotion of digital art, where architecture, design, photography, cinema, literature and all the other multiple forms of art and visual expression find their dimension and interact with one another. It was built on the foundations of an old anti-aircraft tunnel that served from 1943 as a bomb shelter in World War II. It was known as the "Forge Refuge" a safe haven during the tragedy of the war, and now it has been rechristened as the "Digital Refuge", a place of rebirth, where technology meets art, offering a contemporary space where people can explore creativity through the modern language of technology.

The requalification project, handled by Archea Associati, will house digital expressions of every kind, with an eye always on the future and on the new vanguards. In collaboration with the publisher Forma Edizioni, it will house exhibitions, but also events and performances related to art, architecture, photography, literature, cinema and other initiatives linked to the digital world. It will show original views and more on the 16 screens positioned along the 33 meters of the tunnel, a new idea for Florence where the connection between art, people and technology generates an intense visual experience, unexpected and interactive. It is a space designed for constant change, always dynamic, with a new and exciting speed that distinguishes it from a traditional art gallery.

Rifugio Digitale occupies an area of 165 square meters and is a versatile structure ideal for organizing exhibitions, events, presentation, but also debates, lectures and simple discussions. It is expected to appeal to a vast public desirous of indulging their interest in ideas and novel cultural experiences right in the heart of Florence.
