Exhibition opening at Rifugio Digitale with **Claudine Doury** and curators

From September 25 to October 13, 2024 Rifugio Digitale presents the exhibition *Solstice* by photographer Claudine Doury, which is the seventh and final stage of the exhibition cycle dedicated to contemporary photography *Homecoming*, conceived by Irene Alison and curated by Irene Alison and Paolo Cagnacci. The event is organized in collaboration with Forma Edizioni and the Associazione Infoto and thanks to the support of Gruppo AF and Banca Ifigest. The opening will be held on Wednesday, September 25, 2024 at 6.30 p.m. in the presence of the artist and curators.

Between 2023 and 2024, the Homecoming exhibition cycle has explored the concept of identity in relation to places, viewing the idea of "home" as a return to the origins, a rediscovery of an artist's own culture or roots. The exhibition entitled *Solstice*, featuring the work of Claudine Doury, curated by Irene Alison and Paolo Cagnacci, closes the cycle, taking us - through the pictures of the French photographer - on a voyage of discovery of ancient rituals but also of the troubled and restless world we are living in right now: the issues affecting relations between mankind and nature; the interaction between present and memory; the creative, revolutionary power of femininity; the fine, almost imperceptible, line between transition, loss, change and new beginnings.

As an empathetic and sensitive traveler who, in the last several decades, has extensively documented regions like central Asia, Crimea and Siberia, as a photographer of great talent and winner of the prestigious Leica Oskar Barnack Award in 1999, for more than a decade, every June 21, Doury has set out on a voyage that has taken her from St. Petersburg to Maloyaroslavets in Russia, and then to the island of Lake Ives in Bielorrussia, to Kaunas, Vilnius, and the Polish and Latvian farmlands, to document the rites of the solstice.

RIFUGIO DIGITALE

Called Kupala by the Slavs, Kupalès by the Balts, the night of the solstice is a traditional celebration with roots that go deep into the pagan feasts linked to the forces of nature and the cult of the sun, an event that welcomes and celebrates the brief periods in which the skies of the north achieve twilight but never darkness. Forgotten by most of the Western European world, the pagan rituals of the sun, rooted in centuries of history, are still greatly revered in the northern regions of Eastern Europe. Doury illustrates them with mysterious, delicate photographs, on the borderline between reality and the dreamworld, to evoke the invisible forces that move through these places in a night that seems endless and that promises new beginnings, celebrating the expressive and spiritual power of the light.

From the day of the opening it will also be possible to consult the catalog of available works by **Claudine Doury** on the Forma Edizioni website www.formaedizioni.it.

Forma Edizioni

Forma is an editorial (publishing) initiative developed in order to allow the dissemination and knowledge of avenues and experiences belonging to the world of art, architecture photography and more generally, to promote the best research in production and technology, following the changing lifestyles and contemporary living. Since its foundation in 2010, the catalogue has grown with about twenty titles a year giving "form" to the expressive traces that animate today's cultural debate, deepening both specific areas of knowledge already known to the public, and investigating those intellectual and artistic areas considered, for various reasons, revealing new points of observation of reality. A common feature of each project is the high quality of the product, images, printing, typographic or IT processes used, as well as a targeted diffusion and distribution in places of use, such as specialized bookstores, museum bookshops and exhibition sites, which they add to the normal availability on the net that necessary and indispensable presence in the "sites" where opinions and evaluations of merit are built. The publications range from, important monographs dedicated to contemporary and renowned architectural works, such as *Cantina Antinori, to chronicle of the construction of a new landscape*, research and insights related to university study issues, catalogues of important exhibitions, such as the one hosted at the Cini Foundation of Venice *EST. Italian travel, city and architecture stories* curated by Luca Molinari or the monographic exhibition hosted at the MAXXI Museum in Rome *Gio Ponti. Love architecture* in 2019. Exhibitions and events expand the cultural enhancement process that Forma sets out to offer to a refined and attentive public. The publishing house is in fact involved in the creation of volumes relating to the exhibitions annually hosted at the Forte di Belvedere in Florence or at the Stefano Bardini Museum and to the monographic exhibitions hosted in private galleries dedicated to artists of the calibre of Alighiero Boetti, Arnaldo Pomodoro, Lucio Fontana and Alberto Burri. There is no shortage of photography and design texts, such as the important monograph dedicated to the work and life of Karim Rashid, or the overview of contemporary Milanese design *The Design City. Milan city laboratory*. The on the road city architectural guide series is currently under construction. Mainly focused on contemporary works, each volume investigates the peculiar aspects of the most important cities in the world, proposing a critical reading of future scenarios. The publishing house has counted important collaborations with personalities of high intellectual depth and international fame such as the late Adolfo Natalini, founder architect of Superstudio, Bruno Corà, Luca Massimo Barbero and Sergio Risaliti, art critics and historians, Luca Molinari, architecture critic.

RIFUGIO DIGITALE

Banca Ifigest

In the Middle Ages, the two largest banks in Europe already existed in Florence, the Bardi bank and that of the Peruzzi family, with branches all over Europe, lending money to merchants and monarchs. In the early 20th century, for the great bankers of New York, Florence was the icon of the maximum splendor they wanted to imitate and, indeed, when the building that houses the Federal Reserve was constructed, its architects were inspired by Palazzo Vecchio, Palazzo Pitti and, above all, Palazzo Strozzi, to give the structure an idea of stability, solidity and security. So it was in Florence, thanks to the initiative of several groups of entrepreneurs and historic Italian families, that Banca Ifigest was founded, in 1987. Banca Ifigest, one of the main Italian independent banks is still today the most trusted partner for the management and conservation of family wealth, thanks to its personal approach. Today the bank operates branches in Rome, Turin, Genoa, Milan, Prato and Santa Croce sull'Arno, in addition to its main headquarters in Florence, it also has offices of Financial Consultants in Sesto Fiorentino and Casalecchio di Reno. Among the numerous services provided by the banking group, Banca Ifigest offers services of assistance to those clients who need to preserve and safeguard complex equity situations, through its subsidiary Sevia Fiduciaria; it operates in the market of common investment funds, with its highly experienced management team, through its equity investment Soprano SGR and through Fundstore.it, the largest supermarket of online funds, where it is possible to purchase in as many as 7,000 different sectors using your own current account with any Italian bank. Throughout its history, Banca Ifigest has always paid close attention to social considerations, working alongside small enterprises to ensure that their money is always used for the purpose for which it was intended. The Bank has often contributed to sponsor and realize cultural and sports events, demonstrating its strong ties to the local community.

INFOTO

The cultural association INFOTO-Florence was founded in 2019. Its founding partners, photographers who are all Florentine by birth or adoption, number eighteen at the moment, but it is an open number: one of the primary goals of the Association is the promotion of initiatives and projects targeted on increasingly broadened participation. In addition to organizing exhibitions, and the constant participation of many of our members in nationwide competitions, we are particularly focused on training, encouraging didactic activities guided by professional photographers. The main goal of INFOTO is to create a reference in Florence for photographic culture, which has been neglected for far too long. Attention to visual culture in its broadest sense, tends to make us more appreciative of other artistic disciplines as well, with a better understanding of painting, sculpture, architecture and the urban structure of our cities. Our members have participated regularly in exhibitions where their photography was featured alongside works of painting and sculpture, in search of the similarities and shared difficulties: a broader outlook from which to draw inspiration and new stimuli. At this time, with the support of Banca Ifigest, we plan to organize a series of workshops alongside the important exhibitions presented at Rifugio Digitale. The workshops will be held by Italian and international photographers. Working alongside the professional journalist and photo-consultant, Irene Alison, and the photographer Paolo Cagnacci, who participated with us in organizing the exhibitions and workshops, we gleaned a number of interesting ideas for our activity in the field of quality photographic research.

RIFUGIO DIGITALE

Rifugio Digitale

Rifugio Digitale (Digital Refuge) is a new exhibition space in a former bomb shelter tunnel repurposed as a site devoted to the promotion of digital art, where architecture, design, photography, cinema, literature and all the other multiple forms of art and visual expression find their dimension and interact with one another. It was built on the foundations of an old anti-aircraft tunnel that served from 1943 as a bomb shelter in World War II. It was known as the "Forge Refuge" a safe haven during the tragedy of the war, and now it has been rechristened as the "Digital Refuge", a place of rebirth, where technology meets art, offering a contemporary space where people can explore creativity through the modern language of technology.

The requalification project, handled by Archea Associati, will house digital expressions of every kind, with an eye always on the future and on the new vanguards. In collaboration with the publisher Forma Edizioni, it will house exhibitions, but also events and performances related to art, architecture, photography, literature, cinema and other initiatives linked to the digital world. It will show original views and more on the 16 screens positioned along the 33 meters of the tunnel, a new idea for Florence where the connection between art, people and technology generates an intense visual experience, unexpected and interactive. It is a space designed for constant change, always dynamic, with a new and exciting speed that distinguishes it from a traditional art gallery.

Rifugio Digitale occupies an area of 165 square meters and is a versatile structure ideal for organizing exhibitions, events, presentation, but also debates, lectures and simple discussions. It is expected to appeal to a vast public desirous of indulging their interest in ideas and novel cultural experiences right in the heart of Florence.
